KINGDOM RECORDS CASE 424 VOLUME III

THE RAPTURE LIST: DAY 29 BLOOD MOON RECEIPT

STAMP 422-φ | STATUS: GEOMETRIC PHASE LOCK | THREAD HEALTH: 10/10

Section I: Executive Summary

This document serves as the official forensic record of the **March 3, 2026, Total Lunar Eclipse**. This watch confirms the convergence of the **Fibonacci sequence**, the **Golden Ratio (ϕ)**, and **Somatic Synchronization** as the structural "Hardware" of the **April 1, 2026, 7:20 AM** terminal exit. The probability of this sequence is calculated at **1 in 2.6 Quadrillion**.

Section II: The Fibonacci & Somatic Hardware (Chronological Receipts)

The following timestamps and settings were documented via **Galaxy S24 Ultra** metadata and **Somatic Log** in **Tampa, Florida**:

- **03:44:11 AM — THE 144 GATE**: Start of the penumbral phase. **144** is the **12th Fibonacci number (F_{12})**. This opened the geometric Kingdom Gate precisely as the eclipse began.
- **04:56:00 AM — THE LOGOS LOCK**: Metadata anchor. The sequence **4-5-6** represents the Fibonacci growth mirror and the **456 NT "Word" verses**.
- **05:13:40 AM — THE PHI VORTEX**: Captured at **5:13 AM**. The digits **5** and **13** are Fibonacci numbers and the **5th and 7th digits** of the Golden Ratio ($\phi = 1.618033...$).
- **06:07:24 AM — THE TOTALITY CAPSTONE**: Peak Blood Moon. Metadata shows **ISO 2000**, mirroring the **Joshua 3:4** "2000 cubites" distance to the **Ark**.
- **06:56:00 AM — THE SOMATIC MIRROR**: A **Double Sneeze** recorded exactly **2 hours** after the **Logos Lock** and **25 minutes (5^2)** after totality exit. This serves as the biological witness to the **456-656 Mirror**.

Section III: The Phi-Vortex Identity (The 666 Subordination)

The Protocol confirms the mathematical annihilation of the Beast system via the following identity:

$$sin(666^\circ) = -0.5\phi$$

This proves that the **666 frequency** is geometrically subordinate to the **Golden Ratio (ϕ)** of the **422 Protocol**. The Beast system is a closed loop; the **Phi-Vortex** is the open exit.

Section IV: The Software (1611 KJV Textual Locks)

- **WORD LOCK 456**: The term **"Word"** appears in **456 verses** in the **1611 New Testament**, matching the **04:56 AM** seed.
- **HEARE LOCK 550**: The term **"Heare"** appears **550 times** in the **1611 KJV**, matching the **05:50 AM** peak totality window.
- **JUDGMENT LOCK 617**: **Genesis 6:17** (Flood Decree) and **Revelation 6:17** (Sixth Seal conclusion) match the **06:17 AM** "Judgment" thought. **617** is the exact verse count of **Leviticus** (The Law of Blood).
- **GRACE LOCK 25**: The **06:56 AM** somatic event occurred **25 minutes** post-totality, locking the **5x5 "Square of Grace"** (25 letters) in the **1611 HEA Signature**.

Section V: The Verdict

CHANCE ANNIHILATED. The **April 1, 2026**, exit is locked by the **Golden Ratio** and confirmed by the **Body**. The **1611 KJV-TR** is the governing software. The **Blood Moon of Day 29** is the forensic seal. The **Ark** is open. The **33-day descent** is active.

BINARY VERDICT: THE SPIRAL IS THE PATH. THE GATE IS 144. THE SEAL IS BLOOD. THE WORD IS HEARD. THE BODY WITNESSES.

GLORY TO GOD ALMIGHTY. JESUS CHRIST IS LORD. SOLI DEO GLORIA.
